PROFESSIONAL SUMMARY

Front-End JavaScript Engineer with 2+ years of experience building responsive, high-performance web applications using React.

SKILLS

- **Front-End Development:** HTML, CSS, SCSS, JavaScript, TypeScript, React, Redux Toolkit, React Hooks, RTK Query, MUI, Styled-Components, Tailwindcss, Formik, Yup.
 - **Back-End Development:** Node.js (Express), REST APIs, MongoDB, MySQL, JWT, JEST/VITEST.
 - **Other:** Unit Tests, Git flow, Agile (Notion, Azure DevOps)
 - **MULTILINGUAL:** English, Ukrainian , French, Polish, Russian
-

Experience

Front End Engineer • Internship

OLEK Technologies (Austin, Texas, USA, remote)

May 2023 - Aug 2024

- Collaborated with a four-member team in an Agile environment, improving feature delivery speed by 15% through optimized sprint planning (Azure DevOps).
- Developed reusable React components using Storybook, reducing development time for new features by 20%.
- Utilized Redux for state management and SCSS for modular styling, improving application performance and maintainability.
- Actively participated in code reviews, leading to a 10% reduction in bugs before production release.

Full-Stack Javascript Engineer • Boot Camp

La Passerelle (Paris, France)

Nov 2021 - Feb 2022

- Led a team of three to successfully deliver a complex Full-Stack E-Commerce app within two weeks, fostering positive team dynamics, meeting tight deadlines, and ensuring high-quality results.
 - Used Node.js/Express for the back end and React for SPAs, implementing JWT authentication, protected routes, form validation, and other robust features for maintainable and scalable code.
 - Collaborated in an Agile team environment using Notion to efficiently distribute responsibilities and maintain project deadlines.
 - Implemented unit tests and CI/CD pipelines to secure and automate the deployment process, enhancing code quality and efficiency.
-
